Mahindra Last Mile Mobility and Uber Partner to Accelerate 3W EV Adoption Across India

- EV Auto Advantage programme aims to support deployment of 5000 Mahindra electric autos over the next 12 months by improving access to financing and reducing barriers to EV adoption for drivers.
- MLMML is also one of the finalists for the 2026 Earthshot Prize in the 'Clean Our Air' category

Mumbai, November 16, 2026: Mahindra Last Mile Mobility Limited (MLMML), India's leading electric commercial vehicle manufacturer, and Uber today announced a partnership to support the adoption of 5000 Mahindra electric three-wheelers over the next 12 months. Under the Memorandum of Understanding (MoU), the two companies will collaborate through the EV Auto Advantage programme to improve access to financing and other adoption enablers. This will make it easier for drivers on the Uber platform to transition to electric mobility. The partnership will focus on markets where EV penetration remains low by addressing key barriers to adoption.

The announcement was made at an event in Mumbai, highlighting the shared commitment of Mahindra Last Mile Mobility and Uber in advancing sustainable and accessible mobility solutions for Indian cities.

Commenting on the partnership, Suman Mishra, Managing Director & CEO, Mahindra Last Mile Mobility, said, *"Sustainable mobility will scale when it works for the driver first. By making electric mobility a better economic choice for drivers and entrepreneurs, we are creating impact that is both sustainable and scalable. Through this partnership with Uber we want to push the transition further, especially in parts of India where EV adoption remains low."*

Speaking at the event, Pradeep Parameswaran, Head of Mobility, Uber, said, "*India has been an important source of mobility innovation for Uber. We have always believed that the future of urban mobility lies in understanding how people move and building solutions around their everyday needs. Electric mobility is not only the right thing to do, it brings direct and strategic benefits to our business, our users, our cities, and our wider communities. Our partnership with Mahindra to advance electric mobility and the Connected Journeys reflect this thinking. The opportunity ahead is to build a mobility ecosystem where public transport and shared mobility work together to make cities more accessible, efficient and sustainable."*

MLMML has been at the forefront of last-mile electrification in India with more than 4 Lakh commercial EVs on the road. The company has a strong presence in both the passenger as well as cargo commercial EV sectors. With one of the widest portfolios of commercial vehicles, MLMML continues to drive the electrification of last-mile transportation while creating sustainable livelihood opportunities. For its efforts, MLMML has also been recognised as one of the finalists in the 'Clean Our Air' category for the prestigious Earthshot Prize 2026. The winner will be announced on November 17, 2026, in Mumbai.

About Mahindra Last Mile Mobility Limited

Mahindra Last Mile Mobility Limited (MLMML), a subsidiary of Mahindra & Mahindra Ltd. (M&M), is India's leading electric small commercial vehicle manufacturer. Its portfolio includes the Treo range, UDO, Zor Grand, e-Alfa and ZEO, serving both passenger and cargo commercial vehicle applications in India's last-mile mobility ecosystem.

About Uber

Uber came to India in 2013 with a simple promise: press a button, get a ride. Over a decade later, Uber is live in more than 225 cities and has become #IndiaKiRide - helping millions move the way they need to, every day. From Bikes and Autos to Cars, Metros, and even Buses, Uber brings together India's diverse mobility options on a single app. Whether it's a short trip across town or a journey between cities, with a single swipe Uber makes everyday mobility seamless for millions -while enabling more than 2 Million Indians to earn a sustainable income behind the wheel. As we continue to reimagine how the world moves for the better, our ambition keeps expanding, and our commitment remains unwavering: to keep India moving forward.
